## How do I set up my eMail account on my iPhone ?

When setting up the mail wizard on the iPhone you will have to add an account first ... Tap on "Other"

and then on **Add Mail Account**.

# Einrichtung Email

Now enter your account information and tap on the "**Save**" button.

Thereby you can specify an eMail name and a description of your mail account.

# Einrichtung Email

The screenshot shows an iPhone interface for checking account information. At the top, the status bar displays '3G', '13:11', and '65%' battery. Below the status bar is a header with a loading icon and the text 'Account abfragen'. The main content area contains a list of account details:

<b>Name</b>	Max Mustermann
<b>E-Mail</b>	tutorial@[REDACTED]
<b>Kennwort</b>	●●●●●●●●
<b>Beschreibung</b>	Tutorial

Now you have to provide additional information that are required for creating the account. It's important that "**IMAP**" is selected as protocoll.

Specify the EUserV server data for your incoming eMails.

The hostname is ***imap.euserv.de***. Enter your **username** and your **password**.

# Einrichtung Email

The screenshot shows the 'Neuer Account' (New Account) setup screen on an iPhone. At the top, there are buttons for 'Abbrechen' (Cancel), 'Neuer Account', and 'Weiter' (Next). Below this, there are two radio buttons for selecting the email protocol: 'IMAP' (selected) and 'POP'. The form contains the following fields:

- Name:** Max Mustermann
- E-Mail:** tutorial@[redacted]
- Beschreibung:** Tutorial
- Server für eintreffende E-Mails:** (Section header)
- Hostname:** imap.euserv.de
- Benutzername:** pop [redacted]
- Kennwort:** [redacted]

Finally specify the hostname for the server responsible for the outgoing eMails (**smtp.euserv.de**).

# Einrichtung Email

The screenshot shows the 'Neuer Account' (New Account) setup screen on an iPhone. At the top, there are three buttons: 'Abbrechen' (Cancel), 'Neuer Account', and 'Weiter' (Next). The status bar at the top shows '3G', '13:13', and '64%' battery. The screen is divided into two main sections: 'Server für eintreffende E-Mails' (Server for incoming emails) and 'Server für ausgehende E-Mails' (Server for outgoing emails). The incoming server section has three fields: 'Hostname' with the value 'imap.euserv.de', 'Benutzername' (Username) with 'pop' and a blue redaction box, and 'Kennwort' (Password) with a series of dots. The outgoing server section also has three fields: 'Hostname' with 'smtp.euserv.de', 'Benutzername' with 'Optional', and 'Kennwort' with 'Optional'.

Now you can use "Mail" and send/receive your eMails at EUserv.

How can I create new folders (mail boxes) with "Mail"?

Therefore choose "Settings" on your home screen and select „Mail, Contacts, Calendars“.

# Einrichtung Email

Tap on your mail account here

# Einrichtung Email

and then on your user account.

# Einrichtung Email

Now tap on "Advanced".

# Einrichtung Email

Now enter **INBOX** under "**IMAP Path Prefix**" and save this setting.

# Einrichtung Email

Go to your inbox and tap on "Edit" and

# Einrichtung Email

finally tap on "**New Inbox**".

# Einrichtung Email

Give this folder resp. mail box a name and save it.

# Einrichtung Email

Now you created a new mail box.
