

Einrichtung FTP-Upload

How can I publish my files with Nvu or KompoZer ?

Open Nvu or KompoZer. Under the "File" menu entry you will find the option "Publish as...".

Click the "Settings" tab. Enter the settings you want to save under the menu point "Site Name".

Einrichtung FTP-Upload

The screenshot shows the 'Seite publizieren' dialog box with the 'Einstellungen' tab selected. The 'Seiten-Name' field contains 'Domainname'. The 'Server-Information' section has an empty 'HTTP-Adresse Ihrer Homepage' field. The 'Login-Informationen' section has the 'Publizierungs-URL' field filled with 'ftp://ftp.euserv.de/www/data/' and a 'Durchsuchen...' button. The 'Benutzername' field contains 'Benutzername' and the 'Passwort' field contains '*****'. A checked checkbox labeled 'Passwort speichern' is present. At the bottom are buttons for 'Publizieren', 'Abbrechen', and 'Hilfe'.

Under "Login information" you need to enter the FTP path and the access data yo received from EUserv.

Click the "Publish" tab.

Select your set "Site Name". Enter the page titel and the file name.

The screenshot shows the 'Seite publizieren' dialog box with the 'Publizieren' tab selected. The 'Seitenname' field is a dropdown menu with 'Domainname' selected and a 'Neue Seite' button. The 'Seitentitel' field contains 'Ihre Seite' with a note 'z.B.: "Meine Web-Seite"'. The 'Dateiname' field contains 'ihreseite.html' with a note 'z.B.: "meineseite.html"'. The 'Site-Unterverzeichnis für diese Seite:' field is empty. A checked checkbox 'Grafiken und andere Dateien hinzufügen' is present, with two radio button options: 'Gleiche Adresse wie Seite verwenden' (selected) and 'Dieses Site-Unterverzeichnis verwenden:' (with an empty dropdown). At the bottom are buttons for 'Publizieren', 'Abbrechen', and 'Hilfe'.

Einrichtung FTP-Upload

If you want to upload files that are linked with your published file just make a tick under "**Add graphics and other files**".

Click the "**Publish**" button to proceed.
