

# Outlook Express

## How can I change my displayed name of sent emails in Microsoft Outlook Express?

If you use your user name (**popxxx-xxxxxxxxxxxxxx**) as default name during the email account setup under Microsoft Outlook, this name **popxxx-xxxxxxxxxxxxxx [youremail@address.com]** will be displayed to the recipient of your email. To change the name of the sender, please proceed as follows:

Click on **Tools -> Accounts...**

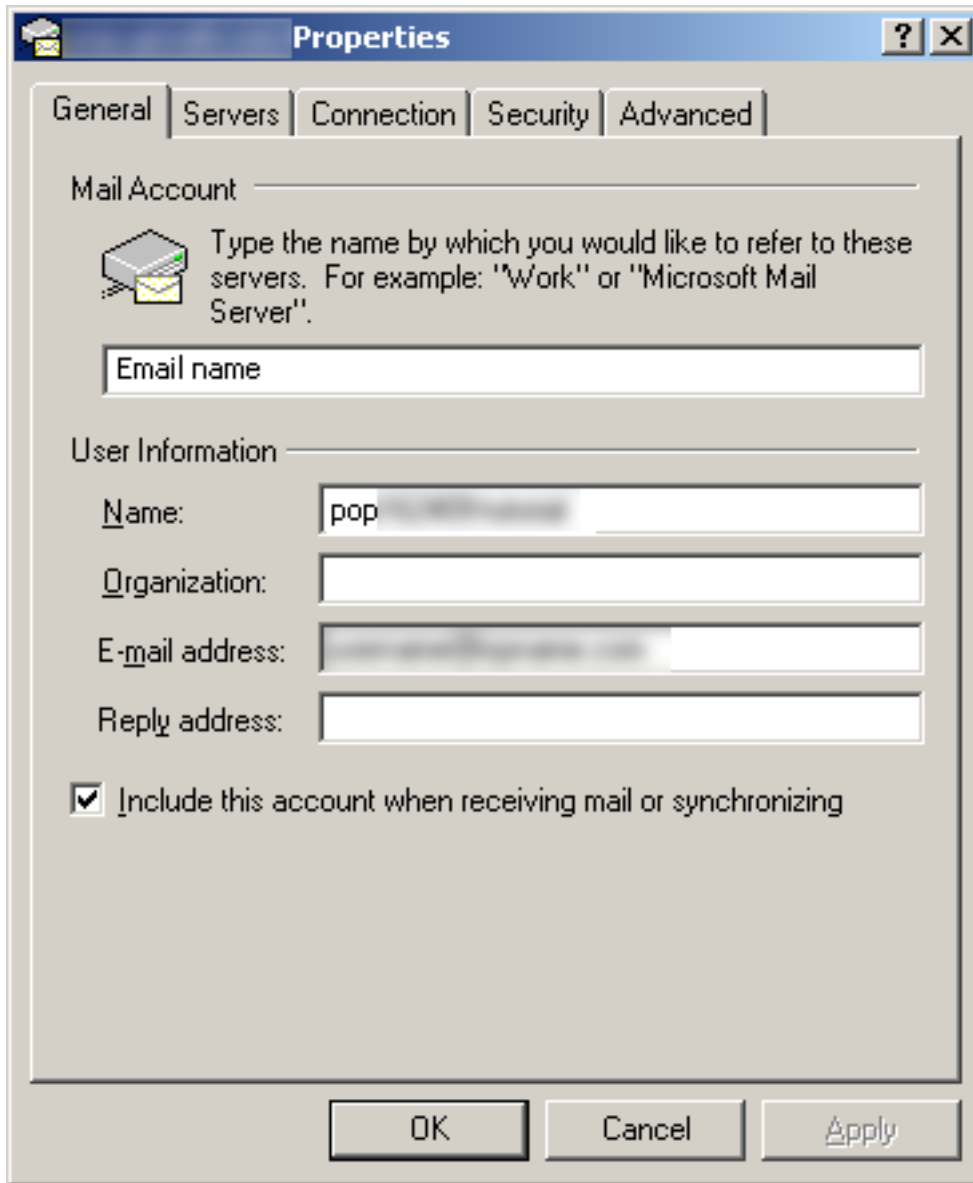

Click on the tab **Mail**, choose your email account and click on **Properties**.

# Outlook Express

In "User information" your "popxxx-xxxxxxxxxxxxxxx" should be shown under **Name**.

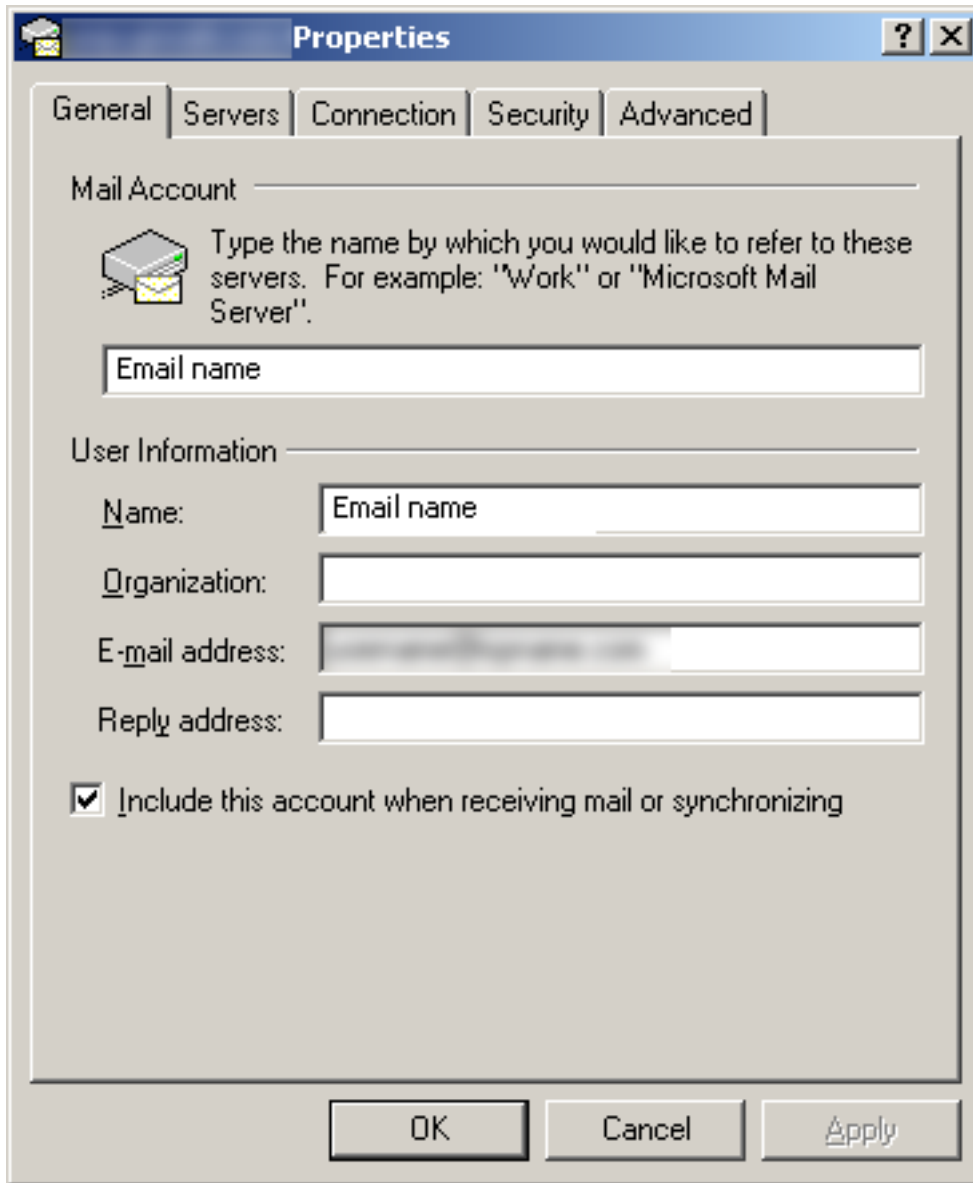

# Outlook Express

The image shows a screenshot of the Outlook Express Properties dialog box, specifically the General tab. The dialog box has a title bar with the text "Properties" and standard window controls (minimize, maximize, close). Below the title bar are five tabs: "General", "Servers", "Connection", "Security", and "Advanced". The "General" tab is selected. The "Mail Account" section is empty. Below it is a text box with a mail icon and the instruction: "Type the name by which you would like to refer to these servers. For example: 'Work' or 'Microsoft Mail Server'". Below this is an "Email name" text box. The "User Information" section contains four text boxes: "Name:" (containing "pop"), "Organization:", "E-mail address:", and "Reply address:". At the bottom of the "User Information" section is a checked checkbox with the text "Include this account when receiving mail or synchronizing". At the bottom of the dialog box are three buttons: "OK", "Cancel", and "Apply".

This is the name, that will be displayed to the recipient. You can change this value accordingly.

# Outlook Express

The screenshot shows the 'Properties' dialog box for an email account in Outlook Express. The 'General' tab is selected. The 'Mail Account' section has a text box containing 'Email name'. Below it, a text box also contains 'Email name'. The 'User Information' section has four text boxes: 'Name' (containing 'Email name'), 'Organization' (empty), 'E-mail address' (containing a blurred address), and 'Reply address' (empty). A checkbox labeled 'Include this account when receiving mail or synchronizing' is checked. At the bottom are 'OK', 'Cancel', and 'Apply' buttons.
