

FTP-Accounts

How can I publish my files with Nvu or KompoZer ?

Open Nvu or KompoZer. Under the "File" menu entry you will find the option "Publish as...".

Click the "Settings" tab. Enter the settings you want to save under the menu point "Site Name".

FTP-Accounts

The screenshot shows the 'Seite publizieren' dialog box with the 'Einstellungen' tab selected. The 'Seiten-Name' field contains 'Domainname'. The 'Server-Information' section has an empty 'HTTP-Adresse Ihrer Homepage' field. The 'Login-Informationen' section has the 'Publizierungs-URL' field filled with 'ftp://ftp.euserv.de/www/data/' and a 'Durchsuchen...' button. The 'Benutzername' field contains 'Benutzername' and the 'Passwort' field contains '*****'. The 'Passwort speichern' checkbox is checked. At the bottom are 'Publizieren', 'Abbrechen', and 'Hilfe' buttons.

Under "**Login information**" you need to enter the FTP path and the access data yo received from EUserv.

Click the "**Publish**" tab.

Select your set "**Site Name**". Enter the page titel and the file name.

The screenshot shows the 'Seite publizieren' dialog box with the 'Publizieren' tab selected. The 'Seitenname' dropdown is set to 'Domainname' with a 'Neue Seite' button next to it. The 'Seitentitel' field contains 'Ihre Seite' with a note 'z.B.: "Meine Web-Seite"'. The 'Dateiname' field contains 'ihreseite.html' with a note 'z.B.: "meineseite.html"'. The 'Site-Unterverzeichnis für diese Seite:' dropdown is empty. The 'Grafiken und andere Dateien hinzufügen' checkbox is checked. Underneath, the radio button 'Gleiche Adresse wie Seite verwenden' is selected. At the bottom are 'Publizieren', 'Abbrechen', and 'Hilfe' buttons.

FTP-Accounts

If you want to upload files that are linked with your published file just make a tick under "**Add graphics and other files**".

Click the "**Publish**" button to proceed.
